## MARKET POTENTIAL

Market Potential is the most significant indicator in your report of the likely commercial success of your track. It combines both your Track Rating and your Passion Rating to provide you with a single aggregate score that predicts how commercially successful your track might be within your market. Your track's Market Potential score is calculated as a percentage between 0% and 85%. For the best odds of chart success, an artist should shoot for a score of 65% or better.

The Market Potential classification indicates where the track is positioned among over 100,00 other tracks.

Chart success assumes a reasonable promotional budget. It should also be noted that the relative success of a single is also directly related to the existing profile of an artist.

## TRACK RATING

Your Track Rating is a weighted average of all the ratings your track received from our reviewers. This number reflects how highly reviewers thought of your track, but does not necessarily reflect your track's market potential.

16-24	 05-Dec-2020	Lovely guitar at the beginning. Very plain song. Very shouty and forced vocals. Although got easier to listen to about at 1:05. Although then went too shouty and loud again. Singer has a fabulous voice but used in the wrong way as it was pretty unbearable to listen to	1
16-24	 05-Dec-2020	I like the simple guitar tune to this song and the singing that the intro starts off with. I think the song as a whole is amazing and the singing and instruments go excellently together. I love the vocals and think the singers voice really suits this type of music.	6
16-24	 05-Dec-2020	I really like the message of this son! It's something that a lot of people can relate to. The instrumental matches the mood of the song. The artist vocals also give it another meaning any you can hear the emotion in their voice as well.	7
16-24	 05-Dec-2020	I felt every word that she was singing. Her voice is beautiful and it automatically caught my attention. I couldn't help but smile as soon as i heard this song go on. If you're a spiritual person i recommend listening to this. The instrumental in the background is beautiful. It pulls the whole song together	9
16-24	 05-Dec-2020	I like the slower intro to the song. The opening lyrics seem to work well with the background music. The notes that the singer is trying to achieve seem a bit forced but overall work well with the sound. The melody is easy to understand and like.	8
16-24	 05-Dec-2020	I think the music is very relaxing and calm. And i think many people would love to sing along to the song. It makes people happy so they would want to listen to it again. It is one of my favourite songs and makes me happy and calm and the melody is a good pace.	9
16-24	 05-Dec-2020	This is a very comfortable and calming song. The melody is nice. The lyrics are reassuring. The lyrics talk about faith and can really give strength to those that need it. The singer is a very good singer as well. He voice is powerful at the right times.	8

16-24		vocals sound it good, it seems quite slow but that is also some peoples taste. the voice could be louder to ride over the instrumental parts. instruments sound pretty good but also sorta basic, like an intro class to music could do it. overall its still good	7
16-24		Beautiful song, Beautiful voice, Beautiful message. I cannot stop listening to this song. I like guitar and orchestra playing with it also. I love the message about God. I would share this song to family and friends it is very nice. And it really is very pretty.	8
16-24		Strong intro/ has a good quality from the start, and sounds well produced. Vocals work well with the instrumental, however ,the singer sounds talented and could therefore do well even without a backing track. Although it is a religious song, that aspect is not "overwhelming", which in my opinion is a good quality, as that means listeners who are not necessarily religious, can also appreciate your music.	8
16-24		The melody at the beginning is so smooth and great. You vocals is amazing and soft and sweet like a marshmallow. this song sounds personal although. The instrumental would itself would sound like a gospel song. Who knew? This song is amazing because it together makes a emotional beautiful piece	10
16-24		i love the music it makes me have good memories. i really liked the singer's voice,her voice and very good relaxing her mouth and very beautiful i wwill always listen whe i go to sleep. the mouth of the singer is very cute and good to hear	8
16-24		This song sounds like it has a very high production value. The vocals are really really strong and the lyrics hit home. This isn't the type of music that I would put on, but if I heard this on the radio, I definitely wouldn't turn it off. It puts me in a sad mood but in a good way. One negative is that it feels a bit too long.	7
16-24		I think this song has very good vocal and the singer has a nice and soothing voice creating a calm song to listen to whilst relaxing. The instruments really emphasis the vocals and creating a soothing background noise making it really stand out. I would say this is an amazing song however my preference on my song genres would not make this fit in my playlist.	8
16-24		This song is very good its a good vibe feeling and relaxing. Its good for when you are doing activities like painting,yoga its a really good song. I will give it a 5 star rating this song will be a good song to sing in church.	5

16-24		This music has an awesome start. The singer sings with a smooth and sweet voice. I like the way she softly pronounces the words. The instrumentals are simple, but they are well-played and they also flow and rhyme well with the vocals. This production is very good.	9
16-24		The music is good and blends with the singers voice. The lyrics are understandable and really good. People can relate to this song and the emotion that the singer is feeling is also relatable. The singer has a nice voice and the music is nice too.	8
25-34		The entrance of the song starts slowly. Its Vicals are sung by a female artist talking about the Lord being with her throughout her struggles through life and her gratitude. the vocals are soft and the instrument in the background is a piano. The theme of this song is religious/ faith. and is choir like.	9
25-34		She absolutely nailed it with this song. I could feel the Spirit almost immediately. This is a song with staying power. The music is simple, which is so important because it doesnt distract from the power of the message. Her vocals are crisp, and soothing. production wise, it is excellent- tones are where they should be. I appreciate a worship track that has church value, meaning every band can learn it and the words can touch so many.	10
25-34		I love the guitar in the back round. This song is not my type of music i would listen to. I love the lyrics and what the meaning of the song is about. The song isn't bad. The singer isn't bad. Her voice is beautiful. She hits the high notes perfect. I love back round music. I love the slow sounds.	10
25-34		This song is very similar to one music I used to listen to when I was a teenager. Reminded me of the band The Calling, so beautiful and has huge energy. The voice of the singer is fantastic, it fits perfectly with the instrumentation, I liked it.	7
25-34		As this song begins, it sounds soothing and light, but it lingers a bit too long without much of a change in the mood or direction. The bluesy vocals of the lead female singer fits the music really well, and I like the heartfelt and thought-provoking messages in the inspirational themes.	8
25-34		The song is melancholic. Although not usually something I would listen to I feel like it could fit anyones emotion and be something that transports them back to moments in their life and has a personal touch to everyone. I began to sing a long quickly because of the repetition of then song. I wouldn't immediately see it as a religious song.	8

25-34		I like guitar playing in the background. And the soft playing piano is also a plus too. The production is good overall. The vocals, combined with the instruments, all flow well together. Especially the melodic essence of the track - leaves a nice smooth balance love ballad type of song.	9
25-34		This was a very emotional and passionate track which I greatly appreciated but I would not add it to my playlist. The female vocalist was very skilled and carried the melody with ease. Her narrative was engaging and she told a good story. The backing piano was also brilliant.	5
25-34		this song is very sentimental and it has a consonant arrangement, the performer is stunningly talented and her voice resounds with grace and beauty, the verses feel very personal and they leave a lasting impression, I also like the romance inherent in the lyrics and the melody	8
25-34		The singer in the song really tries to reach the audience in a spectacular manner that is really capturing. This song is well balanced all-round. I love this track personally at it brings me closer to my master. This track is inspiring and showcases the love of God.	9
25-34		I like the guitar and the voice in the intro. As the verse starts, I gotta be honest and say I like her voice less. The instrumental is okay but predictable while the corny lyrics continue on. Sounds like it would be very low in a commercial background.	2
25-34		I really enjoy songs that start with gentle finger picking guitar play. The instrumentals and effects in this song are just amazing. I should also mention the outstanding vocals that went really well with the well written lyrics. I think I enjoyed every single part of this song although the only thing that may have needed some improvement is the production quality.	7
25-34		the rhythm of this music is very regular and it is a good feature for special music. and the voice of the singer is so calm and makes perfect harmony with the melody. but the duration of music is so long and became boring for the listener.	9
25-34		i like this style of music because its so nice to hear and i think its really beautiful. the melody of it is so good. the choice of instruments was amazing and i would love to hear more of this genre in the future of music. the vocals are also amazing the singing is top class.	7

 25-34	<p>The vocals were great and I love the beat. The instrumental was smooth and I'm not the gospel type. In addition she has a great voice and I get a soulful vibe from her voice. People will like/love the song if they hear it, it's not bad at all.</p> <p>05-Dec-2020</p>	10
 35-44	<p>the opening notes are lovely. the chords are touching. the lyrics are personal and touching as well. the vocals are nice. the vibrato is deep but still smooth. strong vocals. the melody is memorable. this sounds like something for the radio. the lyrics are inspirational. the crescendo to the chorus is great.</p> <p>05-Dec-2020</p>	8
 35-44	<p>the guitar was quite a strong component of this song and carried the tune very well. it complemented the singer's voice, which is strong and confident, but still melodic. it is a pretty tune, with a nice chorus and meaningful words. the song is arranged artfully, highlighting the strengths of both the instrumentals and the vocals, equally balancing both nicely so i could appreciate it all. it was a strong tune, and suited the singer well. quite well put together, sounds like it could work as a disney movie song.</p> <p>05-Dec-2020</p>	6

 35-44	<p>The music in this song is very soft and delicate. The piano is just beautiful. The voice sounds really lovely. The song sounds pretty good and has a great message. The vocals and music fit together beautifully. The song is a bit on the long side and there's a few parts that are kind of repetitive.</p> <p>05-Dec-2020</p>	6

A tastefully played acoustic guitar intro segues into a fine lead vocalist. She has a fine tone, pitch and expressiveness. Her verses and choruses are supported by well nuanced melodies and artfully phrased lyrics. She is backed by a solidly composed score with a fine arrangement.

The keyboards give a good base to the acoustic guitar, with the guitar and then the piano setting the mainstay of the melody and rhythm in the track. This gives a nice gentle feeling to the track that the leads voice then uses to good effect, to the most part the delivery of the lyrics is restrained but with some orchestral support behind the lead there is then a lot more presence given to the vocals. this is not a track that immediately grabs you but one to reflect on.

This song is awesome . It is definitely a song that reinforces ones faith especially when times are rough. This is a perfect song to play to keep a person's faith on fire. I recommend that this song is played while in devotion. Thank you to the artist for releasing this song in the atmosphere. The vocals are sweet and matches the feel of the music. The production overall was well balanced.

## Weightings

The better a Reviewer is at judging the broader consensus rating of the track, the higher weighting their opinion receives. When calculating the Overall Market Potential, each Reviewer's track rating is weighted in accordance with their influence. For example a track rating from a highly respected Reviewer, who has proven to be accurate at identifying strong or weak tracks in that genre, can carry a much heavier influence than a track rating from a newer Reviewer.

## Reviewers/Sample Group

This is the group of music consumers who have listened to the track online and left their track rating and written review. They are sourced from our sister site, Slicethepie and they do not know they are conducting market research when they hear the track, which helps to achieve honest and objective responses. The sample group is selected at random and screened by their age, gender, location and genre preferences. A diverse sample group of reviewers is required to form a "smart crowd" which ensures an accurate Market Potential. See "Wisdom of Crowds" below.

## Wisdom of Crowds

Wisdom of Crowds is a proven methodology that large groups of ordinary people organised under the right conditions (a "smart crowd"), outperform small groups of experts in making decisions and predictions. It is not new. It is the science behind Google and decision-making in some of the largest companies in the world. It has been proven time and again that collective wisdom consistently surpasses the experts. It also means that SoundOut can guarantee a high level of accuracy with results.

The 4 conditions required to form a "smart crowd" that delivers an accurate result are:

1. Diversity of opinion: A sample group of reviewers with many different points of view makes better decisions than one where everyone has the same information.
2. Independence: The reviewers' opinions are not influenced by others.
3. Decentralization: Answers are given by individual reviewers based on their own local and specific knowledge rather than by a central person.
4. Aggregation: There is a way of accurately measuring the sample group's collective answer.
